

Module Description: Philosophy and Nursing Theory (21R01110203)

Module designation	Course Module
Semester(s) in which the module is taught	I
Person responsible for the module	Dr.Andina Setyawati, S.Kep., Ns., M.Kep (Coordinator) Prof. Dr. Ariyanti Saleh, SKp., M.Si Prof. Dr. Elly L. Sjattar, SKp., M.Kes Dr. Erfina, S.Kep., Ns., M.Kep
Language	Bilingual, Bahasa Indonesia and English
Relation to Curriculum	This course is a compulsory course and offered in the 1 st semester.
Teaching Methods	Teaching methods used in this course are: - Interactive lectures - Small group discussions (SGD) The class size for lecture is approximately 60 students.
Workload (incl. contact hours, self-study hours)	Contact hours for lecture is 40 hours, assignments are 48 hours, and practice are 48 hours. For this course, students are required to meet a minimum of 136 hours in one semester, which consist of: 40 hours (equals with ECTS) for lecture, 48 hours for structured assignments, 48 hours for self-study hours,
Credit points	3 credit points (equivalent with 4.53 ECTS)
Required and recommended prerequisites for joining the module	-
Module objectives/intended learning outcomes	After completing the course, students will be: Knowledge: CLO 1. Understanding the concepts of philosophy and philosophy of science (K) CLO 2. Understanding the philosophy and paradigm of nursing (K). CLO 3. Applying the conceptual models and theoretical approaches of nursing into nursing practice (K).
Content	Students will learn about: - Introduction to Philosophy and Nursing Theory - Philosophy, Paradigm, and Nursing Paradigms - Concept Development (from Concept to Theory) - Definition of Theory and Nursing Theory - Components of a Theory - Relationship between Paradigm and Nursing Theory - Types or Levels of Theory - Selected Nursing Theories (Nightingale, Henderson, Peplau, Watson, Orem, Roy, etc.) - Middle Range Theories in Nursing - Concept of Holistic Care

	<ul style="list-style-type: none"> - Concept of Change - Concept of System and Systems Approach
Examination forms	Written exam: Multiple Choice Questions.
Study and examination requirements	<ul style="list-style-type: none"> - Students must attend 15 minutes before the class starts. - Students must inform the lecturer if they will not attend the class due to sickness, etc. - Students must submit all class assignments before the deadline. - Students must attend the exam to get final grade. - Students must get final mark minimum of 40

Example of Written Test Exam

1. Conceptual models are a set of concepts that symbolically represent and describe a phenomenon. In nursing, the frequently used conceptual models are:
 - a. Neuman's System Model
 - b. Roy's Adaptation Model
 - c. King's Theory of Goal Attainment
 - d. Roger's Science of Human Beings
 - e. King's General System Framework

2. The example of Middle-Range Theory in Nursing is:
 - a. Parse's Theory of Human Becoming
 - b. Grief Theory
 - c. Newman's Theory of Health as Expanding Consciousness
 - d. Factor-Relating Theory
 - e. Situation-Relating Theory

3. The characteristic of the helping-trust relationship, which involves harmony (a relationship that must be honest and open), empathy (the nurse must show an attitude of trying to feel what the client feels), and warmth (accepting others positively), is included as one of the explanations of the carative factors by Watson. The most appropriate statement to describe this characteristic is:
 - a. Forming a humanistic-altruistic value system.
 - b. Instilling faith and hope (faith-hope).
 - c. Developing sensitivity for oneself and others.
 - d. Building trusting and helping relationships.
 - e. Enhancing and accepting positive and negative feelings expression.
