Example of Written Test Exam

1. A nurse is talking to a young person who has been diagnosed with HIV. During these interactions, nurses do not force patients if they do not want to answer personal questions. What is the psychological atmosphere that the nurse is trying to uphold? **(CLO1)**
 - A. Mutual open
 - B. Appreciate the thought
 - C. Respect opinions
 - D. Respect feelings
 - E. Respect opinions

2. The nurse is communicating with the patient at the final termination stage. Interaction activities with patients are carried out by nurses before being picked up by their families. What is the nurse's sentence that is most appropriate in this scenario? **(CLO2)**
 - A. How are you feeling this afternoon?
 - B. When will we meet again?
 - C. Tell me, Mom, what did we talk about while you were being treated here?
 - D. Shall we talk here?
 - E. Good afternoon, what exercises have you done?

3. "Mother, I hope you can practice this way of rebuking the hallucinations when you hear the voices that you said earlier. You can practice these abilities according to the schedule of activities that we have arranged. What do you think?" What phase of communication did the nurse demonstrate in this case? **(CLO 3)**
 - A. Future contracts
 - B. Follow-up plan
 - C. Subjective evaluation
 - D. Objective evaluation
 - E. Termination
