

Module Description: Gerontological Nursing (21R01411102)

Module designation	Course Module
Semester(s) in which the module is taught	IX
Person responsible for the module	Silvia Malasari, S.Kep., Ns., MN (coordinator) Andi Masyita Irwan, S.Kep., Ns., MAN., PhD Syahrul Said, S.Kep., Ns., Mkes., PhD Kusrini Kadar, S.Kp., MN., PhD Waode Nurisnah, S.Kep., Ns., M.Kes Arnis Puspitha, S.Kep., Ns., M.Kes Nurhaya Nurdin, S.Kep., Ns., MN., MPH Framitha Rahman, S.Kep., Ns., MSc
Language	Bilingual, Bahasa Indonesia and English
Relation to Curriculum	This course is a compulsory course and is offered in the 9 th semester.
Teaching Methods	The teaching methods used in this course are: <ul style="list-style-type: none"> - Pre-post Conference - Clinical tutorial - Bedside teaching demonstration - Bedside teaching supervision - Nursing round - Case Report - JournalCritical Appraisal. <p>The class size for a group of students in clinical and community practice is approximately 5 to 15 students for each facilitator/lecturer.</p>
Workload (incl. contact hours, self-study hours)	For this course, students are required to meet a minimum of 74,67 hours clinical fieldworks in one semester.
Credit points	2 credit points (equivalent to 3.56 ECTS)
Required and recommended prerequisites for joining the module	Students must have taken the following professional nurse courses: <ol style="list-style-type: none"> 1. Basic Science Nursing 2. Medical-Surgical Nursing 1 3. Medical-Surgical Nursing 2 4. Maternity Nursing 5. Pediatric Nursing 6. Psychiatric Nursing 7. Emergency Nursing
Module objectives/intended learning outcomes	After completing the course, the students will be: Attitude: CLO1: Applying the basic concepts of gerontic nursing and the concepts and theories of aging in accordance with ethical and legal considerations (A1) Competence:

	<p>CLO2: Providing gerontic nursing care for elderly individuals in community and hospital settings (C1, A2)</p> <p>CLO3: Delivering professional nursing services and engaging in interprofessional collaboration to enhance the health status of the elderly through effective communication (C2).</p> <p>CLO4: Applying evidence-based practice in gerontological nursing care (C4)</p>
Content	<p>Students will learn about:</p> <ol style="list-style-type: none"> 1. Nursing assessment to elderly patient <ul style="list-style-type: none"> ● Health Assessment ● Physical examination ● Daily Activity Independence ● Depression Scale ● Cognitive Measurement ● Insomnia Rating Scale ● Risk Falls Assessment 2. Nursing Diagnoses: Data analysis and nursing diagnoses decision <ul style="list-style-type: none"> ● Nursing diagnoses based on reference. (i.e. NANDA) 3. Nursing Intervention, example: <ul style="list-style-type: none"> ● Non-pharmacological therapy ● Pharmacological therapy ● Posyandu for elderly in community ● Health Education ● Group Activity Therapy ● Modality Therapy ● Complementary Therapy 4. Nursing Documentation & Report <ul style="list-style-type: none"> • Writing patients' report 5. Nursing evaluation : <ul style="list-style-type: none"> • SOAP Method <p>Evidence based-practice in gerontological nursing</p>
Examination forms	<ul style="list-style-type: none"> - Written test, - Direct observation of procedural skill (DOPS), - Subjective Oral Case Analysis (SOCA), - CIR, - Case Report, - Objective Structured Long Examination (OSLER), - Multi-Source Feedback (MSF) 360 - Portopholio
Study and examination requirements	<ol style="list-style-type: none"> 1. Students are engaged in a professional program in accordance with their intended objectives. 2. Students are required to arrive 15 minutes before the start of any activity; if a student is late, they must report to their supervisor. 3. Students must wear the complete attire (appropriate attire as per the professional program regulations and an ID Card). If the attire is incomplete, students are not allowed to participate in practical activities and will be subject to professional duty replacement. 4. Students must carry their nursing kit every day. 5. Students are not permitted to use their mobile phones during practical sessions.

	<p>6. Students are prohibited from taking photos or videos of patients and any part of the hospital premises, and from disseminating information (directly or indirectly) on social media.</p> <p>7. If a student arrives late (maximum 15 minutes) at the practice location, they are required to serve a 2-day professional duty replacement.</p>

The interview questions focus on practice that has been done based on evidence found from journal etc. The article from the journal and its nursing implications must be presented in the report.</p>	<p>Rubric for supervision (DOPS, OSLER)</p> <p>Rubric for paper/reports (CIR, Case Report, Portopholio)</p> <p>Rubric for interview (SOCA)</p>

Example of Written Test Exam

1. A 62 year old woman accompanied by her family came to the consul at the Polygeriatrics, saying she was still thinking about plans for the operation she would undergo. Before surgery, the client is given an explanation of the benefits and possible risks of the procedure. The client is asked to sign an informed consent sheet if they agree to the action plan. **(CLO 1)**

What ethical principles are met?

- a. *Justice*
 - b. *Fidelity*
 - c. *Benefiscience*
 - d. *Non maleficience*
 - e. *Respect for autonomy*
2. A 78 year old man, during a home visit, was found lying weak. Assessment results: right legs and arms are weak, right extremity muscle strength is 2 and left 5. The client can eat alone, defecate himself in the toilet. However, clients are still assisted when bathing, moving to the bathroom, and dressing. **(CLO2)**

What is the KATZ ADL independence category for the client above?

- a. category B
 - b. category C
 - c. category D
 - d. **category E**
 - e. category F
3. A 65 year old man with Alzheimer's came to the geriatrics clinic for his second routine consultation. During the interview, the client did not cooperate, spoke little, appeared apathetic in non-verbal responses and refused to answer the questions asked. **(CLO 3)**

What is the primary nursing action plan?

- a. Ignore the patient's reaction
- b. Continue the interview process
- c. Termination of the interview process
- d. **Explain the purpose of the interview**
- e. Analyze the questions asked
